Dearest Ginny -

Thank you for the wonderful letter. I enjoyed reading of your experiences & felt much warmth in my heart.

The Embrose Foundation seems like it is a perfect place for you to be. I wish you much strength with your efforts.

Most of what I do these days involves my on going activities with Yako. It is a full time experience & does not allow for other projects. I still find it challenging & worthwhile. She is a constant inspiration.

The rest of my life is not unlike the way you might remember it.

I am grateful for each day. When I next come to N.Y. I shall call you & perhaps we could have a reunion. My love to you —
Elliot
