Dear Srimati Virginia

Wish you a Blissful New year.

Thank you very much for your Embrace Foundation Bulletin of December 1987.
As I was out of station I could not write to you earlier.

For all the troubles and strifes economic or political, social or religious - it is ~~the~~ selfishness that is behind all these. All religions teach Love, Love means sacrifice. But selfish leaders of religions create hatred and wars. But devoted and sincere workers try to bring different religious groups together and create harmony. Recently I had an opportunity to participate in such an International gathering of different religionists. The CWR Council for World's Religions conducted a Seminar at Harrison Hot Springs near Vancouver in Canada. I presented a paper on "The Vision and work of Bhagawan Sri Satya Sai Baba" in that seminar. Bhagawan Baba is Love incarnate. Hindus, Christians, Muslims, Parsis, Buddhists, Jains, Sikhs, - all worship him as an Incarnation. True Religious Harmony is experienced in Baba's teaching. I saw a similar attempt in the CWR. Now I found Embrace also working in the same direction. I am sure you will succeed in your endeavors, for you are on the Right Path, and making others also tread the same True path.

Wish you and your colleagues Ajata and Anne Stuart all Success. May God help you all. I will be glad to render any service, you deem fit. With good wishes

Yours sincerely
B. Rama Raju
